

## Quality Garden Buildings Services

### Site Survey

Quality Garden Buildings will provide a free site survey and quote including expert advice and breakdown of prices for the building, delivery, installation and services.

As part of this service Quality Garden Buildings will assist with all design aspects from small changes to complete drawing for a custom design build.

### Delivery

Quality Garden Buildings will take care of delivery, either direct from manufacturer or via a QGB location, at a time to suit you.

### Groundwork

Depending on your building we can construct a base from concrete, slabs or timber.

All garden buildings require a solid base to stand on. This stops movement in the building and reduces the effect of groundwater, ensuring the longevity of your new building.

Our skilled team will prepare and level the ground and then construct a permanent base for your new building out of 100mm poured concrete with reinforcing mesh if required, 600mm x 600mm paving slabs or a timber frame, with plastic posts, which is concreted into the ground.

In addition we can also construct a timber decking area around the base to compliment your new home office, summerhouse or log cabin.

Not sure what type of base you need? Why not call us today on 0118 940 1423 to arrange your free site survey, and we will arrange to visit you at a time of your convenience to help you make an informed decision.

## **Installation**

If you do not want to install your new garden building yourself then why not let us do it for you?

Quality Garden Buildings can provide a one-stop installation service for all of our garden buildings. Our experienced team can construct your building as well as provide any additional services.

Whether you are buying a home office, log cabin, summerhouse or shed, our professional team can help you to make your garden dream a reality and maximise your use of your new space all year round. Our Lugarde range of garden buildings can even be fitted with roof and floor insulation to keep you cosy in the colder months.

Our team of skilled installers are recognised by the Federation of Master Builders, so you can relax in the knowledge that your new building will be installed both correctly and safely. When the job is complete we will take away, and environmentally dispose of, all equipment, rubbish and packaging.

Call us on 0118 940 1423 today to enquire about having QGB install your log cabin, summerhouse or home office.

## **Painting and Treatment**

Let us help you keep your building in top condition.

Quality Garden Buildings offer various options for treating and sealing your new garden building:

### **Factory Treatment (Lugarde Range)**

Have the complete building factory treated prior to delivery in the transparent stain as shown in our Lugarde brochure pages 10/11. This involves all internal and external surfaces.

### **Painting Works**

Supply the "Sadolin" Superdec paint in a colour of your choice and apply two coats of the paint to your cabin.

For colours look at [www.sadolin.co.uk](http://www.sadolin.co.uk).

### **On Site Treatment (Lugarde Range)**

Supply the "Sikkens" timber treatment to a shade of your choice. Apply one coat of the treatment to all external surfaces.

For colour shades look on [www.sikkens.co.uk](http://www.sikkens.co.uk)

## **Electrical**

Add power for heating, lighting and entertainment installed by a qualified electrician.

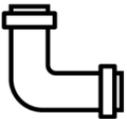

No matter what you intend to use your new garden building or log cabin for, having electrical power in it always makes it more useful. Quality Garden Buildings offer a professional electrical installation service for all of our garden buildings, with the power running through armoured cable from the main house.

Add Electrical Socket points, lights and switches, showers and broadband.

Our team of skilled installers are recognised by the Federation of Master Builders, and all works will be carried out to the current B.S. standards and regulations. A Test Certificate will be issued on completion of works.

Whether you are buying a home office, log cabin, summerhouse or shed, our professional team can help you to make your garden dream a reality and maximise your use of your new space all year round. Our Lugarde range of garden buildings can even be fitted with roof and floor insulation to keep you cosy in the colder months.

Call us on 0118 940 1423 today to ask how easy it is to power your log cabin, summerhouse or home office.

## **Plumbing**

Need a shower, toilet or kitchen installed in your new office or cabin?

Quality Garden Buildings can take care of any plumbing work which you may require in your new office or summerhouse. Our qualified team of installers are members of the Federation of Master Builders, so whether you require a kitchen area or shower room we can supply it with all the water that you will need.

Whether you are buying a home office, log cabin, summerhouse or shed, our professional team can help you to make your garden dream a reality and maximise your use of your new space all year round. Our Lugarde range of garden buildings can even be fitted with roof and floor insulation to keep you cosy in the colder months.

Call us on 0118 940 1423 today to ask how easy it is to provide running water to your log cabin, summerhouse or home office.

## Drainage

Drainage services from Quality Garden Buildings

Need a shower, toilet or kitchen installed in your new office or cabin?

Quality Garden Buildings can take care of all drainage work which you may require in your new office or summerhouse. Our qualified team will lay a 100mm drainage system to take away all waste water from your shower, kitchen, toilet or utility room. If water levels do not allow for full drainage we will provide and fit a "Saniflo" system in its place.

Quality Garden Buildings can also fit guttering to protect the building from rain water.

All works will be carried out to current Building Control Regulations.
